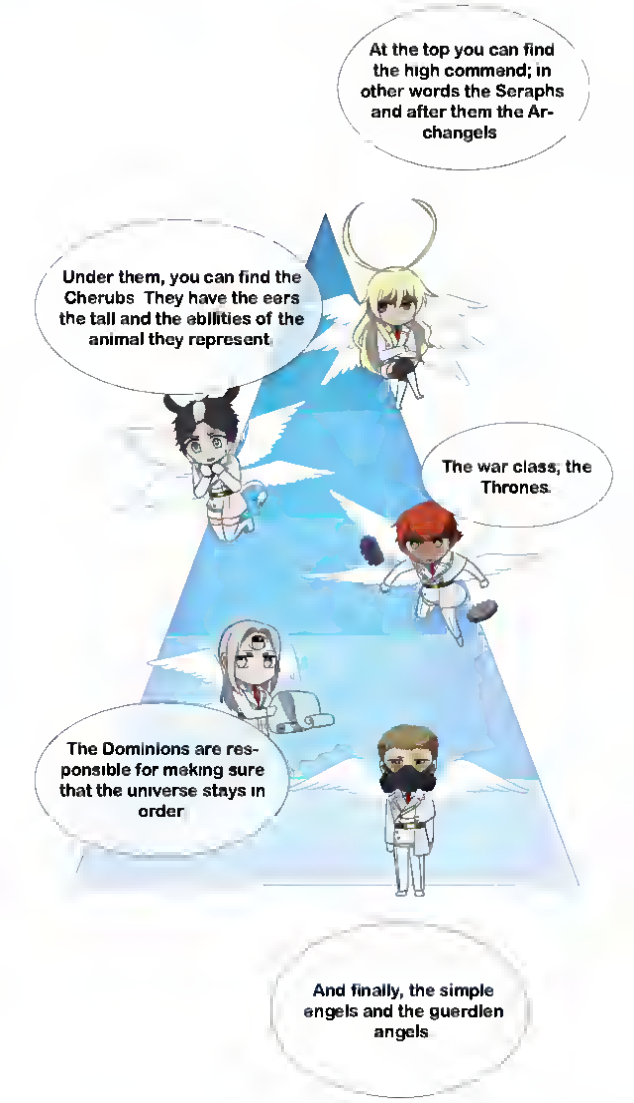
Then what did you do?

I asked to another angel.
Do you remember her? The angel that cut your hair.

Ahh... The one with the animal ears and tail?
Yeah. She is a Cherub.

Cher What?
Cherub. Don't you know?
No

The clesses of the angels are divided into 6.
Ping
What are you doing



At the top you can find the high command; in other words the Seraphs and after them the Archangels
Under them, you can find the Cherubs They have the ears the tall and the ebilities of the animal they represent
The war class, the Thrones
The Dominions are responsible for making sure that the universe stays in order
And finally, the simple angels and the guerdien angels

Are you taking notes?
Gets angry
And what am I going to do with this useless classification of angels?!

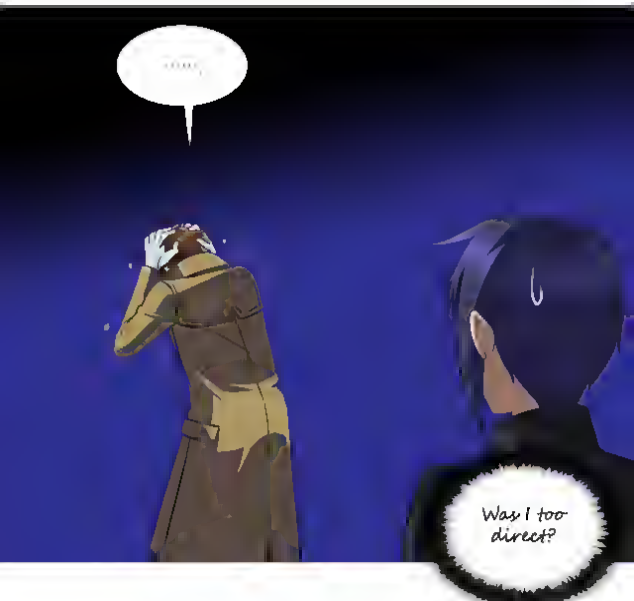
You said that you had made a bet with Henry, right?

If you're saying that Henry is a demon king, then do you have any chance to win?

As I see it, you're completely useless.



Was I too direct?

Yes... I'm useless for now.

I don't know how I ended up like this.

But I won't let you fall into his hands, no matter what.
I will win this bet

I'm sure that you will choose me!!
Points

Stop talking nonsense and try this.
Hurry up, we need to go buy my tools. My classes will start tomorrow.
What kind of school starts at the 2nd of January?

Damn...

What is this guy...

It's like he was a human...

Sophie, wasn't a friend of yours there?
I don't have friends.

Eeeh? You can't do that!! Humans are characterized by being social!!
Why do you care?
Won't you be bullied at school? Wait... Is there still bullying?
If you cry or become depressed at school, remember that I won't be able to help you~
I can't follow you there, since it's prohibited for me according to the agreement.
